Summary

Full-Stack Software Engineer with experience building web applications using React.js, Node.js, JavaScript, and Django, FastAPI, backed by MySQL and PostgreSQL. Experienced in designing REST APIs, integrating Large Language Models, and deploying applications to the cloud. Passionate about Artificial Intelligence and Software Development and building practical solutions through continuous learning. Seeking a full-stack developer role to build scalable, user-focused products.

Technical Skills

Languages: C, JavaScript, Python, SQL

Frontend: React.js, Node.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Django, FastAPI, RESTful APIs

Databases: MySQL, PostgreSQL

AI/ML: LLM Integration, Machine Learning, Prompt Engineering

Cloud & Tools: Git, GitHub, Postman, Render, GitHub Pages, Vercel, VS Code

Core Concepts: Object-Oriented Programming, Database Management Systems

Projects

DriveEase – Luxury Car Rental Platform 2026

Node.js, JavaScript, Tailwind CSS

- Built a responsive car rental web application with a browsable fleet of luxury, sports, and electric vehicles.
- Developed detailed vehicle pages and an end-to-end booking workflow using Node.js and JavaScript.
- Designed mobile-first interfaces with Tailwind CSS for a consistent experience across devices.

Team Task Manager 2026

React.js, Node.js, MySQL

- Developed a full-stack task management application with task creation, assignment, and progress tracking.
- Built Node.js REST APIs and a normalized MySQL schema to manage users, projects, and tasks.
- Created a centralized React dashboard giving teams a single view of project status.

AI Chat Application 2026

FastAPI, JavaScript, Render, GitHub Pages

- Built a full-stack AI chat application using FastAPI and the Groq Llama 3 70B API.
- Implemented real-time streaming responses and session-based conversation memory for multi-turn dialogue.
- Designed RESTful APIs and deployed the backend on Render and the frontend on GitHub Pages.

Experience

Tessolve – AI/ML Intern (Virtual) 2025

- Built and deployed machine learning models for predictive analytics, classification, and recommendation systems.
- Applied end-to-end ML workflows including data preparation, model training, evaluation, and deployment.

Education

Koneru Lakshmaiah University 2022 – 2026

Bachelor of Technology, Electronics and Communication Engineering

CGPA: 8.12/10

Board of Intermediate Education 2020 – 2022

Class XII

72.9%

Secondary School Certificate 2019 – 2020

Class X

100%

Certifications

- Oracle Cloud Infrastructure 2025 Certified Architect Associate – Oracle
- AI Associate Certification – Salesforce
- Artificial Intelligence & Machine Learning Using Python (Level 1 & Level 2)
